

CampDoc.com

BEFORE and AFTER SCHOOL RECREATION

IN ORDER TO ATTEND BEFORE AND AFTER CARE, CHILDREN MUST HAVE ALL REQUIRED FORMS COMPLETED PRIOR TO THEIR START DAY.

Wheeling Park District is continuing to partner with CampDoc.com to better serve children and staff. CampDoc.com offers a health-record system designed for park district programs that allows parents to complete and store health information electronically.

The security and privacy of health information is important to us. The CampDoc.com site is secure, encrypted and password protected. Only Wheeling Park District staff have access to children's health information.

Already Have a CampDoc Account?

You will receive a notification email from CampDoc.com to login and update your child's information.

- Use the same login previously created to access CampDoc.com
- If you forgot your password, enter your email on the login page and click "Forgot Password" to reset it

New to CampDoc?

You will receive an "Invitation" email from CampDoc.com

- Click on the green "Accept Invite" link within the email to create a CampDoc.com account
- Enter your full email address and click continue to set your password

All Children

- Once logged in, select your child's name and click on the health profile link to complete the required information; those already enrolled, need only to update, if necessary, previously submitted information
- Required questions are marked with an * and outlined in red
- Return to CampDoc.com at any time to make changes or update camper health information

Health information is saved from year-to-year; once you complete it in CampDoc.com, you won't have to start from scratch next year.

CampDoc.com sends out periodic emails to notify you of updates and incomplete health information. These notifications come from CampDoc.com, so please add the website to your safe-sender list to avoid accidental delivery to junk and spam folders.

CampDoc.com supports the current and previous releases of Chrome, Firefox, Microsoft Edge and Safari which provide improved security and performance for health information.

We are excited to continually evolve, building safer, more productive and more efficient systems to create the best experience for you and your family!
